Experienced Professionals - Since 1981

Located in Sartell, Minnesota, Adult & Pediatric Urology is the largest urology clinic in Greater Minnesota. We are also the only full-service urology provider in Central Minnesota.

Adult & Pediatric Urology's strong commitment to clinical research is a result of our belief that research is vital to developing more effective ways to diagnose patients, treat patients, and find life saving cures. We are committed to clinical research as a vital part of advancing the practice of medicine and doing what we can to provide state-of-the art diagnosis and treatment for the patients we serve.

Examples of studies we have completed, or are currently conducting:

- Benign Prostatic Hyperplasia
- High Grade Prostatic Intraepithelial Neoplasia
- Metastatic Prostate Cancer
- Newly Diagnosed Prostate Cancer
- Prostate Cancer on Hormonal Therapy
- Prostate Cancer Prevention
- Advanced Prostate Cancer
- Bone Loss Prevention for Patients with Prostate Cancer
- Bladder Cancer
- Overactive Bladder
- Erectile Dysfunction
- Medical Device
